As a recent subscriber and Road Traveler in the Great State of Texas a lot of the Programming Especially lately since the New Janet Jackson Laws are being enforced Radio DJ's and programming are so boring and filtered that there is no character and freedom allowed anymore. Yet alone the same songs are repeated every other hour. In the few weeks since my purchase of XM radio I would rather listen to Satellite over Local radio & CD player due to the wide variety and uninterrupted music selection that I not only gladly pay for a subscription too, But do it so BY MY CHOICE!
